Round Table Conference: Talent War | 25th March 2022

With the current trend of rising cost of acquiring talent, we see a long term damage to the attractiveness of Indian IT offering, especially in Pune. There is a need for some collective deliberation & infusion of some innovative solutions which may make arresting this cost inflation feasible and effective. On the other hand, it's equally imperative to understand whether we should focus on increasing value and not on inflation control. An interactive discussion on the above topic took place.

SEAP invites you to participate along with other leaders in an in person round table conference on **Remote working strategies of Pune based organisations**
